Shopping mall

The shopping mall's layout follows a "Fast North-Slow South and All-round Connectivity" concept, offering a rhythmic and smooth shopping environment. Bathed in natural sunlight streaming through the immense glass roof, the indoor and outdoor spaces are much better interconnected to offer a dynamic "indoor shopping street" that is easy to navigate. The complex features over 10 indoor and outdoor event venues, spaces with varied functions and styles providing great opportunities to connect customers with art,

fashion and nature, becoming an inspirational hub in the heart of the city. With about 250 premium brands, the mall offers consumers with luxurious, diversified, and comprehensive shopping experiences.

Offices

The 51-storey HKRI Centre One and 35-storey HKRI Centre Two are situated on Nanjing Road (West) in the heart of the Jing'an District central business district. Together they provide 1.9 million sq ft of Grade-A office space.

The towers have become the location of choice for many global and Fortune 500 companies and tenants who use them as their Chinese Mainland centres or Asia-Pacific headquarters. This cluster of leading multinational enterprises has become a driving force for the development of Jing'an District.

Hotels

The Sukhothai Shanghai and The Middle House hotel and serviced apartments are boutique hotels with a total of more than 400 rooms. Their designs were inspired by Shanghai's diverse culture, and pay tribute to the rich history of the metropolis.

The Sukhothai Shanghai was designed as an urban oasis, a reconnection to the nature amidst the busy city. The hotel's quiet and elegant environment complements its vibrant surrounding landscape. The Middle House pairs contemporary Western design with an oriental aesthetic, embracing Shanghai's elegant and distinctive style and its vibrant art and fashion scenes.

Cha House

This century-old European-style mansion is a stunning example of Baroque-style architecture. Renamed after Dr Cha Chi-ming, the founder of HKR International Limited, Cha House has been meticulously restored to its former glory, with many of its original architectural features and decorations carefully preserved. In 2021, Cha House and London's iconic luxury department store Harrods worked together to create China's first The Harrods Tea Rooms, and introduced the world's first The Harrods Residence on its second floor in 2023, providing personalized British luxury experiences for a limited number of club members.
